

Keysight Technologies
TC721 50 GHz Attenuator
0–50 GHz Performance

Technical Overview

Description

Wafer-probe TC721 performance data to 50 GHz at various attenuation settings are shown below.

Additional data may be available through WPTC Marketing at 1-707- 577-4482.

Note

This product note provides supplemental information not included in the product data sheet. The purpose of supplemental data is to provide the end user with useful product-specific information to aid in the design process. The information provided does not represent or imply additional product specifications. Every attempt has been made to provide accurate data on typical products.

Figure 1. Typical Attenuation Characteristics

Figure 2. Typical Input and Output Return Loss
